

Valent Steve Asman

+62 0821-2056-0078, valent.asman@binus.ac.id, Taman Kopo Indah 5 Sommerville 3 No 8

Profil Singkat

Mahasiswa Computer Science Universitas Bina Nusantara semester 5 dengan IPK 3,82. Memiliki pemahaman baik dalam ilmu algoritma, struktur data, pengembangan web, serta cloud computing. Berpengalaman menggunakan C, C++, Java, Python, dan SQL melalui berbagai proyek akademik. Siap berkontribusi secara penuh dalam program magang industri.

Status Pendidikan

Universitas Bina Nusantara (2024 – Sekarang)

Semester 1	Semester 2	Semester 3	Semester 4	GPA rata-rata
3,90	3,82	3,77	3,79	3,82

Mata Kuliah yang Dipelajari

Semester 1

- Algorithm and Programming
- Basic Statistics
- Character Building: Pancasila
- Discrete Mathematics
- Indonesian
- Linear Algebra
- Program Design Methods

Semester 3

- Algorithm Design and Analysis
- Artificial Intelligence
- Character Building: Agama
- Computational Physics
- Computer Networks
- Database Technology
- Object Oriented Programming

Semester 2

- Calculus
- Character Building: Kewarganegaraan
- Creativity and Innovation
- Data Structures
- Human and Computer Interaction
- Scientific Computing

Semester 4

- Computational Biology
 - Introduction to Cloud Computing
 - Introduction to Cloud Security
 - Research Methodology in Computer Science
 - Software Engineering
 - Web Based Programming
-

Kemampuan Utama

- Bahasa Pemrograman: C, C++, Java, Python, PHP, HTML/CSS
 - Bahasa: Bahasa Indonesia, Inggris
 - Databases & Cloud: SQL, MySQL/PostgreSQL, Google Cloud Platform
-

Pelatihan & Sertifikasi

- Google Cloud Computing Foundations Certificate
- Databases for Developers: Foundations Certificate
